Gabriel Urbano
Full Stack Developer
Security Clearance: Secret

(732) 351-5021 ◇ gurbano1029@gmail.com ◇ LinkedIn ◇ Github

SUMMARY

Proficient in SQL, basic Python, Java, HTML, CSS, and JavaScript, I bring a unique blend of technical acumen and problem-solving abilities as a dynamic and results-driven software developer with a robust background in web development. Attended a rigorous full-stack web development boot camp to enhance technical expertise. Coding journey began in 2014, with a focus on developing bespoke websites for private clients using a blend of coding skills and template builders. Military experience in the USMC as an air traffic control technician instilled discipline, a strong work ethic, and the ability to thrive in fast-paced environments. Eager to leverage skills and determination in a challenging software development role, continually striving to learn and contribute to technological advancements.

SKILLS

Languages/Technologies:HTML, CSS, Bootstrap, JavaScript, MySQL, Java, Spring MVC, Spring Boot, Hibernate, jQuery, Git, Thymeleaf, Object Oriented Programming, Apache Tomcat, Maven, J2EE, REST APIs.
Exposure to: Spring Framework and JUnit Testing

EDUCATION

Codeup
Certification of Completion   Oct 2023 - Mar 2024

This 5-month coding boot camp teaches full-stack software development through 670 contact hours of hands-on technical training (20% more time than 4-year degree majors require).

CERTIFICATIONS

SOLOLEARN: SQL

SOLOLEARN:Introduction to Javascript

SOLOLEARN:Python for beginners

HACKER RANK: SQL Basic

COURSERA: SQL for Data Science

COURSERA: Getting started with Tableau

EXPERIENCE

Equipment Maintenance Technician
Ericsson - Plano, TX   Aug 2021 to Sep 2023

- Perform repairs, maintenance, calibration, and setup of current and collaborate with the team to install new manufacturing equipment.
- Follow and revise standard operating procedures, while identifying equipment problems and driving toward root cause understanding, and implementing effective solutions to improve overall performance.
- Prepare technical summary report with recommended actions for technical problems on equipment to provide during shift changes and to Engineering and management.
- Successfully trained 3+ technicians on test troubleshooting and operations.
- used SQL, python and tableau to discover product wastage resulting in in product expense cost improving 26%

Equipment Maintenance Technician II
Qorvo - Plano, TX   Jan 2021 – Aug 2021

- Drove improvements to system performance to achieve process requirements and eliminate chronic issues, incorporating practices that were recognized and scaled out to other production operations.
- Provided technical subject matter expertise to monitor and analyze data, offering recommendations and improvements to maintenance procedures to increase total company profitability.
- Excelled as the principal cross-functional contact with engineers to design and execute equipment improvement projects, ensuring clear reporting and swift problem resolution under heavy workload.

MCAS Yuma Building Manager
USMC - Yuma, AZ   Jan 2020 to Jan 2021

- Oversaw 1151 rooms for 2000 plus occupants, focusing on exceptional service and support.
- Provided 24/7 support for inbound and outbound residents.
- Organized logistics for multiple deployments and staffing of 200 plus personnel, all during strict COVID requirements.
- Managing and directing a team of 20 individuals within the cleaning and security staff, overseeing their activities effectively.
- Preparing and carrying out emergency protocols and procedures, as well as overseeing and monitoring maintenance budgets.
- Negotiating and liaising with third-party service providers.
- Conducting regular building inspections, preparing reports, and ensuring facilities follow applicable policies, regulations, and building codes, with an average of 5-10 reports generated daily.

Work Center Supervisor
Air Traffic Control Navigation Aids Technician
UNITED STATES MARINE CORPS   May 2016 to Jan 2021

- Ensured strict compliance with policies and protocols to survey, site, and install air traffic control navigational aids and instrument landing systems within high-stress, deadline-focused combat environments.
- Organized and performed periodic inspections and perform preventive maintenance, remedying time- sensitive malfunctions and supporting the creation of a new handbook to share best practices.

- Expanded expertise at every opportunity, gaining Senior Instructor Qualification with 120+ hours of instruction to 40+ employees as a trusted guide and leader.
- Performed preventative maintenance and fostered continuous improvement across systems.
- Revamped approaches to uphold operational status of 5 critical systems worth $5M in assets.
- Oversaw all maintenance programs and processes for 13 organizations, achieving a notable increase in passing percentage.
- Trained and supervised a team of 12 maintenance personnel, instructing them in the correct execution of preventative maintenance according to required technical documents. Additionally, supervised and audited maintenance personnel performance, ensuring strict adherence to Quality Assurance procedures, safety guidelines, and policies, while also mentoring them in identifying mechanical problems and recognizing system responses to determine appropriate corrective actions.
- Efficiently applied project management skills to meet maintenance requirements ahead of schedule, with a strong emphasis on safety procedures. Additionally, managed full lifespan construction projects for an AN/TRN 44 with a maximum timeline of 8 hours, consistently achieving an average completion time of 5 hours or less.
